

Aramaic OT

Dear Partners,

Our goal at The Seed Company is to keep you informed of the progress that's being made with the Aramaic OT translation project you support. We realize how important your prayers and contribution are to those who are on the field doing the difficult work of translating God's Word into the heart language of this people group. Thank you for your willingness to pray and give for the expansion of God's kingdom.

Unfortunately we weren't able to get a report from the field for the last quarter. We'll do everything we can to see that these reports are forthcoming. As you can imagine, at times events beyond our control make it impossible to get these reports.

- **Pray that as the Aramaic people read and hear God's Word in their mother tongue, they'll respond to His grace.**

Making Strides

We can tell you that the Aramaic OT project is moving ahead, which is a joy to the team and many Aramaic people. Comprehension testing of Ruth has been completed. Also, mother-tongue translators Homer and Demsin have drafted more Psalms, and Demsin is carrying on with the translation of 2 Samuel. Kris has continued answering accuracy questions concerning 2 Samuel and Psalms that Demsin has put forward during the drafting sessions.

- **Praise God for all who contribute to the success of the Aramaic OT translation effort. Pray for them as they give their best to see that this people group knows that Jesus Christ came to this earth to speak the good news of the gospel to their hearts.**

Prayers—A Sweet-Smelling Fragrance

Constant, unceasing prayers are needed on behalf of this vital ministry. According to the Bible, the prayers of the saints are so precious to God that they ascend to heaven before Him with the smoke of the incense out of the angel's hand, thus signifying that our prayers have a sweet-smelling fragrance that's pleasing to the Lord and has eternal significance (Revelation 8:4).

- **Thank the Lord for the great value He places on His children's petitions and intercessions that are offered to Him.**

For security reasons, pseudonyms have been used for the language name and names of individuals.
